

FUTURE FOUNDERS

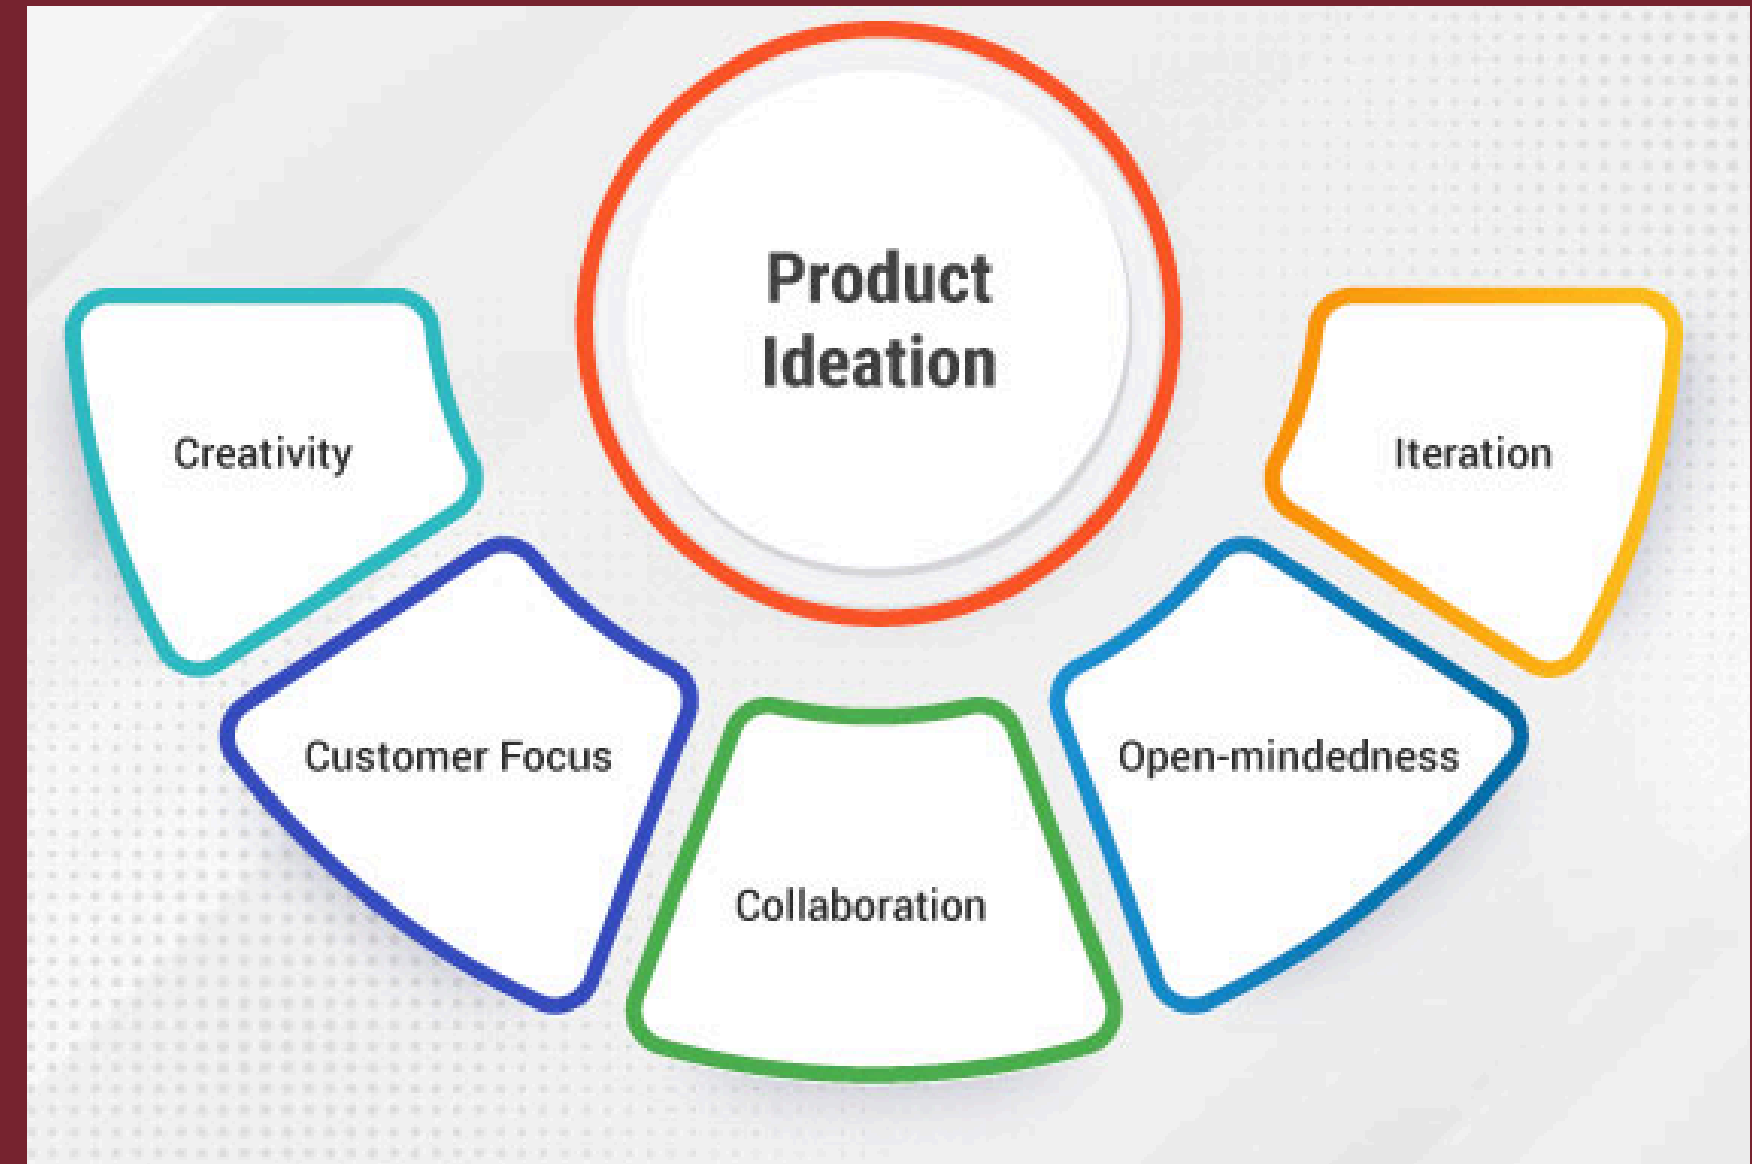

FUTURE FOUNDERS

Dream It. Build It. Show It Off.

RECAP: IDEATION PROCESS

- **Narrow down to your specific field**
- **Find a specific problem, or aspect that can be improved**
- **Develop many solutions within your head**
- **Solidify 1-2 great and feasible solutions**

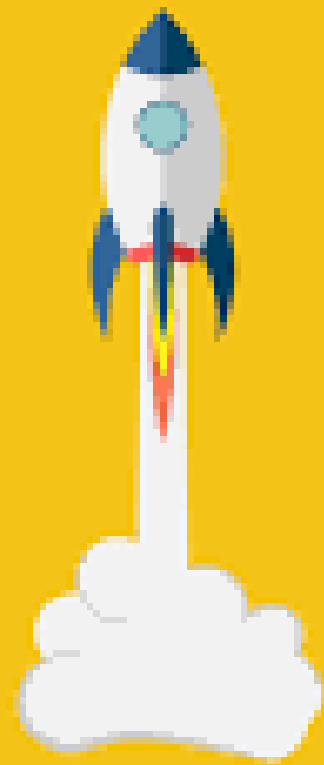

Finding Problems

2

Passion

You tend to be more driven by a passion for your offering as well as by a desire to make a difference.

If you are having trouble finding an issue by yourself or as a group -

We want to help you find real issues for the community while doing something you love !

Try to search by passion and your intrests !

“COOL IDEA” V.S. “REAL PROBLEM”

“Cool Idea”

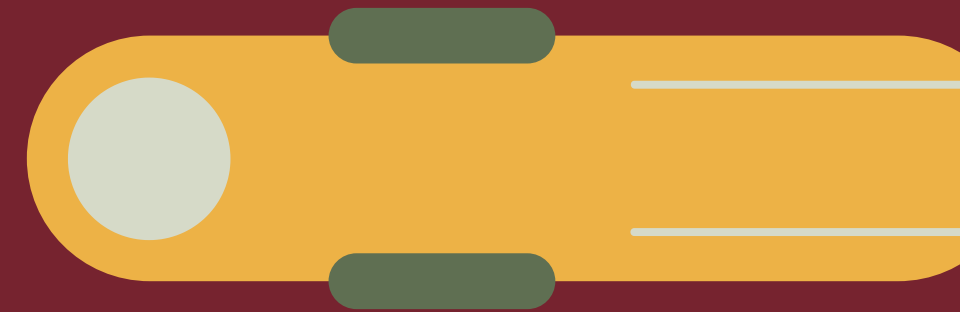

- Limited evidence of demand or willingness to adopt
- Most times solution is defined before the problem
- Value proposition is unclear

“Real Problem”

- Has a purpose and demand
- Target user and use case are clearly defined
- Existing alternatives are inadequate or inefficient

PROBLEM VALIDATION

Goal - Make sure the problem actually exists

- **Analyze interviews, surveys, and observations online**
- **Focus on past experiences, not hypotheticals**
- **Interview classmates, teachers, and family members**
- **Identify problems in school routines or activities**
- **Look for existing workarounds people already use**

QUOTE OF THE DAY

“

THE MOST
SUCCESSFUL
BUSINESSES ARE
CREATED WITH A
BUSINESS MODEL
AROUND SOLVING A
PROBLEM FOR
OTHERS.

ANGELA KELLEY

**Focus on the
Real Problems !**

**HAPPY
HOLIDAYS !**
